MAI
DEUTSCHER KI MONAT

The **German AI Month mAI** takes place from May 1 to 31, 2024, during which the German AI ecosystem organizes numerous events across the country to promote the development of AI in Germany. The goal is to raise awareness of the importance of AI in industry and administration and to strengthen the exchange within the AI ecosystem as well as between the economy and politics. The shared mission is to reinforce *AI made in Germany* for Germany as a future hub.
